THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 a. c. months; \$1.25 three months; or 10 cents for five weeks—strictly in advance.

Reading notices in local column to cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Lee county went wet by nine majority in the election of the 8rd.

Levy county has three candidates for the House of Representatives.

The mayor of Chicago is "Dunne" disappointed at the municipal ownership election.

The peace conference at The Hague should be hurried up before some one else whips Russia.

According to the recent vote in Chicago, the city may acquire and control, but cannot operate street railways.

Kipling says no man is fit to write a novel until he is 40. We always supposed Rudyard has passed that age.

The Pensacola police made 337 arrests during March. Of the number 115 were whites and 222 were blacks.

Atlantic Beach is now the center of attraction for Florida visitors. The Continental Hotel is well patronized.

The quarantine affairs of the United States are provided for, and now an arrangement will have to be made for Texas.

Senator Tillman ought to have a train bulletin in the Senate, so he could regulate the arrival and departure of trains.

Gen. Blanco, the Spanish officer who succeeded Butcher Weyler as governor-general of Cuba, died at Madrid on Wednesday.

The French coal miners are settling a merry pace in the coal strike. It is hoped the miners in this country will not try to follow them.

The Russians are certainly in hard luck. When any nation gets a little pugnacious over there they threaten to have revenge on Russia.

The New York Legislature has decided that the returns show that Mc-Olellan was elected mayor, and it has decided not to allow a recount.

London doctors say that people can eat wood if necessary. It would not trouble them much if the wood was served as ready-to-eat breakfast food.

The big league ball players are showing up well with the little fellows, but when they get down to the game with their equals they strike the toboggan slide.

Florida will soon be noted for the fine quality of camphor gum made in the State. If you want to plant trees for profit as well as beauty, why not set out camphor trees?

There is only way to get the tourist trade: have something to advertise and then advertise it. The Industrial Edition of The Sun brought many people to Gainesville the past winter.

If you want to make Senator Tillman throw a fit, just mention the fact to him that a carpet-bagger is up for office at the hands of the Senate. It is then he grabs for his pitchfork.

STOCK JUDGING.

Florida will soon rank as one of the foremost stock growing States in the Union, and it is gratifying to know that our farmers are gradually making improvements in their stock. The best all-purpose cattle are sought in many instances, and it is cheering to note the ever increasing interest taken in teaching and learning how to determine the quality of domestic animals by their external appearance, or points. "Live stock judging," it is called, and the art cannot have too many good teachers nor too many attentive learners. Knowledge of live stock, to know a good animal at sight, is absolutely essential to successful breeding. Such knowledge enables the breeder to select from his own herds the individuals that will be worthy sires or dams, and also enables him to couple the two in a manner to produce desired results, and without such knowledge breeding must be a hit-or-miss, go-as-you-please sort of work. There can be no certainty about it, and therefore if improvement is made it will be due to luck or chance.

Pedigree has been the chief reliance of breeders in the past, and experience has demonstrated the unreliability of that sort of dependence. Breeder, know thy animals, is the essential factor in live stock improvement, and to know an animal's pedigree is a secondary consideration—not the first. Be able to know that the individuality of an animal is all right—that is the difficult thing to know—and then get assurance of its good breeding, which is easy, and live stock improvement will strike a gait that it has failed to strike in the past. The stock-rearing farmer, young or old, should miss no opportunity to attend a well-conducted stock-judging school or class. It is the surest road to live stock improvement; in fact, the only road to positive improvement.

A GOOD PLATFORM

A number of people are proposing Woodrow Wilson, president of the Princeton University, for the Democratic nomination for President of the United States in 1908.

Dr. Wilson has already written his platform. It consists of one sentence and yet covers nearly the whole field. It was contained in a recent address delivered by the Princeton president. It proposed as a solution for economic problems the application "of old-fashioned morals to new-fashioned business."

That's the whole thing in a nutshell.

Among the candidates for the Legislature in Alachua county appears the name of William N. Sheats. Those who remember his services to the State as Superintendent of Public Instruction will expect to see in him a legislator who will be heard from on something else than ballots. He is of the sort who would be likely to represent his progressive county and section fully and thereby do the State great service.—Times-Union "Short Talks."

Editor Jordan of The Santa Gorda Herald has got a lot of work on his hands, but judging from the tone of his paper we think he would make a good man for the Legislature. He is going to build a new printing office, or put up a new building for his office, besides being quite busy in building a new county out of the lower half of DeSoto. In all his building may success attend him.

Many of the cities of the North have elected Democratic mayors this spring. But if they want to continue the good work they must continue their organization.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CENNY & Co., Toledo, Ohio.
Sold by all druggists. Take Hall's Family Pills for constipation.

The naval station at Pensacola has been kindly remembered in the appropriations, and the excellent location at that harbor will be made better than ever. There is no denying the fact that this port should be kept up in the best manner, as the government has already expended considerable money there and it would be a mistake to not keep it up, being such a convenient station.

A French coal miner has been taken from the mine at Lens, France, where the explosion occurred, who has been entombed 15 days. He was nearly dead, but may live. He said they turned cannibal when their food was exhausted and devoured the corpses of two boys. Yet Mr. Baer would have men take such chances at miserably low wages.

J. J. McBride and J. J. Garrity of Savannah, who pleaded guilty in the United States court to aiding in the fraudulent naturalization of aliens, where fined \$1,000 each by Judge Speer, who also gave them a free lecture on American citizenship. Others will be tried on a similar charge.

The Baptist church of Arkansas was unable to turn Jeff Davis out because he played poker, so they elected him to the United States Senate and expect to have no trouble in getting rid of him.

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely cured of stomach catarrh and dyspepsia, I can say with pride that I am due to 'Cascarets' for their wonderful composition. I have taken numerous other so-called remedies without avail and I find that Cascarets relieve more in a day than all the others I have taken would in a year."

James McNamee, 120 Mercer St., Jersey City, N. J.

Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sicken, Weaken or Grip, etc., etc. Never sold in bulk. The genuine label stamped C. C. C. Guaranteed to cure or your money back.

BALLARD'S SNOW LINIMENT

READ THIS REMARKABLE CURE

"I was much afflicted with rheumatism, writes Ed. C. Nod, Iowa, Sedgwick Co., Kansas, 'going about on crutches and suffering a great deal of pain. I was induced to try Ballard's Snow Liniment, which cured me, after using three 50c bottles. IT IS THE GREATEST LINIMENT I EVER USED; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, and am able to perform a great deal of light labor on the farm.'"
